Last year the community really got behind our Roadkill Project

The data has been very valuable... but sadly Tasmanian devils are still dying on our roads.

Please help us again this year.

Any information you can provide helps us in our efforts to reduce roadkill and to monitor the spread of Devil Facial Tumour Disease.

TWO THINGS that you can do to help:

-  Slow down on the road between dusk and dawn
-  Report Tasmanian devil roadkill sightings.

TWO WAYS to report roadkill:

-  Fill out a **Roadkill Project** form (reply paid post) or
-  Fill out an online form at www.tassiedevil.com.au
